Kit-Prices of the hydraulic system = 1 each propeller incl. spinner assy:

Recommended governors for all hydraulic propellers: MT and Woodward.

Our propeller blades are manufactured in natural-composite, protected by layers of fibre glass/carbon fibre and a stainless-steel erosion sheet, hubs are made of aluminum alloy, Kevlar spinner dome. Extended hubs- if required - are available on request, at no additional charge. Standard blade color is gray with white tips, customer defined colors upon request. See our Service Bulletin No. 1-() for the current TBO's. All quoted prices are list prices for the export, ex factory Straubing and in exchange to the old propeller and spinner assy. Our general terms of sales and limited warranty applies. Delivery time is presently 8-10 weeks after receipt of order.

All rights of change without prior notice are reserved.
